As the train makes a leisurely trip through the countryside, you are served a wonderful meal while being entertained by a troupe of actors and actresses performing a comical interactive murder mystery as they travel through the train cars. The actors actually ask a passenger to “volunteer” to be their victim. The show is more of a comedy versus a drama and the best way to describe the experience is that it is much like being in the front row at a comedy club, where some of your group members are likely to be involved in the show

Scheduled Tour, September 18, 2017 for smaller groups, an alternate date you may want to consider since the railroad has a "40-passenger minimum"
