

Great Day! Scheduled Tour Summary

NEW "SIGHTS UNSEEN IN CLEVELAND"

TUE MAY 12, 2020

Departures, as applicable, from North Olmsted, Middleburg Heights, Independence, Beachwood.

After a couple of years with a "good run", we've added all new stops to our "Sights Unseen in Cleveland" tour. It was not too difficult since most of our staff was born and raised in the Cleveland area. Having visited many fascinating areas, we have discovered how few people have visited these attractions or, if they have, it has been many, many years . . . and things do change. During this tour you will be visiting the Hay-McKinney Mansion, a large home built in the Italian Renaissance Revival style. This home was built in 1911 for Clara Hay, the daughter of a railroad magnate and the wife of John Hay. This home replaced the original home that was located on "Millionaires Row".

We'll also be seeing "where Cleveland starts" and include a collection of the cars and trucks that have traveled Cleveland's streets over the years, many of which were built right here in Northern Ohio. Who knows, maybe you'll have a chance to "go back in time" for a ride or two on the historic Euclid Beach Carousel.

After our luncheon we've included admissions to the Cleveland Botanical Gardens, the first place of its type in the country. Located in University Circle, it traces its roots back to 1930 when it opened as the "Garden Center" when its home was a converted boathouse on Wade Park Lagoon. When you see it, we are sure that you will agree that it's come a long way over the past 90 years. It's been known for its ever-changing outdoor gardens, a glasshouse and a butterfly-filled rainforest.

Our next visit will be at the Cleveland Museum of Art, possibly the centerpiece of the University Circle area. We will be greeted by the sculpture of "The Thinker" greets visitors and, during our tour, you just may be hearing how this is the only sculpture without legs by the same artist. on display. If you've not been here in years, you will not recognize it.
