

Great Day! Scheduled Tour Summary

CREATION MUSEUM & ARK ENCOUNTER TUE-WED JUNE 15-16, 2021

Departures, as applicable, from Willoughby, Beachwood, Independence, North Olmsted, Middleburg Heights, Medina, Mansfield, Columbus, Grove City, Washington CH.

We are again offering this tour that includes one of our more popular destinations, the Ark Encounter, now with a second associated attraction built by the same dedicated folks, the Creation Museum in Petersburg, Kentucky, and this package is offered at the same price again this year! The centerpiece of this tour continues to be the Ark Encounter where Noah's Ark is being built. He loaded his family and many of the world's animals into an Ark that remained afloat throughout the flood and during the receding waters. While no one has ever discovered the "original Ark", we will be seeing a new version being built in a similar fashion.

We will not be traveling to the Mountains of Ararat nor to Sumeria, but we will see it much closer in Williamstown, Kentucky, less than an hour south of Cincinnati. The Ark is a massive wooden structure . . . with the indication that the final cost of building this 510-foot long vessel was considerably more than Noah spent, \$92 million. It is being built using the original dimensions. In an article in the Plain Dealer a month following our initial tour, the Ark was described as an "*attraction of biblical proportions*". You will be seeing the progress being made on what will be the

Work in Process, 2015

largest wooden timber structure in the world as well as how Noah and his family may have lived.

Besides breakfast at the Holiday Inn, we will be dining at the Ark's Emzara's Buffet and, for dinner, the Deutschland Fare Dinner at the Newport Hofbrauhaus.

During the past three years we have taken almost as many groups to the Creation Museum in Petersburg, Kentucky, not too far from the Ark, where biblical history vividly comes to life at this world-class museum. As you walk through the exhibits, you'll encounter the Garden of Eden, an animatronic Noah and flood diorama. Most interestingly, as described in their presentation, it is believed that dinosaurs still existed during the time of Noah's Flood as dinosaur fossils can still be found that were formed when conditions were right during the global Flood. Dinosaurs could have gone extinct any time after the "two of each kind" got off the Ark, just like many other animals have gone extinct since the Flood.

GREAT DAY! TOURS & CHARTER BUS SERVICE . . . (440) 526-5350 . . . (800) 362-4905

All tour details are anticipated at the time that the Scheduled Tour Brochure was prepared and specific stops and/or other inclusions are subject to change or elimination without notice. Tours typically depart between 6 AM and 8 AM with the exact time shown on the itinerary you will receive approximately one to two weeks prior to the tour departure. Most tours return about 8 PM to 10 PM, although this may vary.

Come, and learn more of these stories including the belief that some scientists may be incorrect when they state that it takes millions of years to form a fossil; the Museum presents a case that a fossil can be created in a very short time! There is just one story after another that is sure to surprise you.
