

Great Day! Scheduled Tour Summary

ARK, DINNER-CRUISE, FRANKLIN PARK

SAT-SUN OCT 14-15, 2023

Departures, as applic: Beachwood/Orange, Independence, Parma/Cleve.West, Middleburg Hts, Mansfield, Grove City.

We are extending an invitation, at a special price, as we travel to the site that **Noah's Ark** is being built, using the dimensions of the original vessel, as documented in the Bible. He loaded his family, and many of the world's animals, into the Ark that he constructed. It remained afloat throughout the flood and during the receding waters. While no one has ever discovered the original Ark, we will be seeing a version being built in a similar fashion. We will not be traveling to the Mountains of Ararat nor to Sumeria, but we will see it much closer in Williamstown, an hour south of Cincinnati.

The Ark is a massive 510-foot long vessel (on land) with an estimated final cost to complete being considerably more than Noah spent, \$92 million. Some time after our first tour here, the *Plain Dealer* described the Ark as an “*attraction of biblical proportions*”. You will see the progress being made on what will be the largest wooden timber structure in the world as well as how Noah and his family may have lived as you wander through the boat.

Saturday evening we will be enjoying the “**Admiral Dinner Cruise**” that departs the Newport-Covington dock. Eat, drink and be merry at the ultimate weekend event as we cruise under the stars and dine on a feast fit for an Admiral with, of course, musical entertainment as we cruise the Ohio River. Dinner typically includes carved strip loin au jus & horseradish sauce, carved turkey breast, salmon filet, side dishes and desserts.

Sunday morning, we will depart the hotel and travel northward into Central Ohio. Today's first visit awaits us at **Franklin Park Conservatory** with its gardens, plant collections and topiaries. If you are not quite sure what “*topiary*” is, it is the art of trimming trees and shrubs to end up with shapes, easily recognized by all.
