

Great Day! Scheduled Tour Summary

THE UNDISCOVERED BEAUTY OF DETROIT

TUE JUNE 17, 2025

Departures, as applic: Beachwood/Orange, Independence, Middleburg Hts, No.Olmsted, Elyria, Sandusky.

Explore the Undiscovered Beauty of Detroit. Just a few hours drive away, it offers history, great Architecture, gorgeous places like the Fisher building and iconic landmarks including the RenCen, a complex of seven connected skyscrapers in the bustling downtown area, along the river. This location is near where the *Aquarama* cruise boat arrived from Cleveland, between 1956 and 1962, carrying 2,500 passengers and their cars, on the six-hour trip between Cleveland and Detroit. The vessel, originally a Transport Ship named the *Marine Star*, had been converted to this gorgeous ship that connected the two cities.

Enjoy hidden gems such as architectural must-sees like the Guardian Building; here we will be exploring this bold example of Wirt C. Rowland's Art Deco architecture. It is considered one of the most significant and striking Art Deco skyscrapers in the world.

We will be visiting plazas where concerts abound in the summer, riverfront destinations and Campus Martius Park.

After our luncheon, our next stop will be Hart Plaza, a riverfront destination and venue for summer festivals, concerts and special events. We also plan on a stop at the First National Building, the oldest structure ringing Campus Martius.

One especially interesting part of our touring will include the Fisher Building, known as "*Detroit's Largest Art Object*." The 441-foot tower is one of the greatest works by a legendary architect with its three-story arcade adorned with spectacular frescoes, mosaics, marble and brass. It is truly a masterpiece that you should find most interesting.
