

Great Day! Scheduled Tour Summary

ARK, DINNER-CRUISE, FRANKLIN PARK

SAT-SUN OCT 4-5, 2025

Departures, as applic: **Beachwood/Orange, Independence, Parma/Cleve.West, Middleburg Hts, Mansfield, Grove City.**

We are extending an invitation, at a special price, as we travel to the site where **Noah's Ark** is being built, using the dimensions of the original vessel, as documented in the Bible. He

loaded his family, and many of the world's animals, into the Ark that he constructed. It remained afloat throughout the flood and during the receding waters. While no one has ever discovered the original Ark, we will be seeing a version built in a similar fashion. We will not be traveling to the Mountains of Ararat nor to Sumeria, but we will see it much closer in Williamstown, an hour south of Cincinnati. The Ark is a 510-foot long vessel (on land) with an estimated final cost being considerably more than Noah spent, \$92 million. Some time after our first tour here, the *Plain Dealer* described the Ark as an "attraction of biblical proportions". You will see the progress made on what is the largest wooden timber structure in the world as well as how Noah and his family may have lived aboard the Ark.

Saturday evening, enjoy the "**Admiral Dinner Cruise**", departing the Newport-Covington dock. This "ultimate weekend event" cruises under the stars as we dine on a feast fit for an Admiral, with musical entertainment, as we cruise the Ohio River. Dinner typically includes carved strip loin au jus, carved turkey breast, salmon filet, side dishes and desserts.

Sunday begins at **Franklin Park Conservatory** with its gardens, plant collections and topiaries, based on the art of trimming trees and shrubs to end up with shapes, easily recognized by all, such as dinosaurs, birds, and other animals. A special Sunday meal is included at a restaurant that may be all new to you.
